

## **GALAXY Classroom® Professional Development Courses**

Galaxy expands teaching and learning experiences like no other medium has before. Teachers learn exciting new methods of teaching science and language arts using the hands-on Galaxy programs. Courses are geared to sync with the Galaxy curriculum used by the school and enhance the current elementary school curriculum. After completing the Galaxy training, teachers have access to Galaxy staff via e-mail, toll-free number and fax. In addition, Galaxy continues to support teachers with web-based newsletters, e-zines, and planning calendars throughout the year.

GALAXY Classroom® Professional Development for Finders, Seekers, Science Keepers

### **\*\*Also Available:**

#### **GALAXY Classroom® Online Professional Development for Movers and Shakers**

This innovative new Teacher Toolkit is an online, self-paced course that allows teachers to take GALAXY Professional Development anytime, anywhere. Using audio narration, text narration, and animation, the Toolkit trains teachers to use everyday objects to illustrate fundamental science principles. The course contains interactive lesson plans, science resources, printable teacher guides, and background material that is scaled to match each teacher's knowledge base. The Toolkit also links to teacher community listservs and bulletin boards, and directly to the online student activities. In addition, teachers have access to GALAXY curriculum staff via email, toll-free number, and fax throughout the year.

<b>Delivery Mode</b>	<b>Platform</b>	<b>Software</b>	<b>Length</b>
Web	PC/Mac	Netscape & Internet Explorer	14-16 online hours
